To whom it may concern,

My name is Daine Fleguel-Cannock. I was 18 at the time this began and was still in recovery from a serious assault wherein I was king hit and hit my head on the road, suffering a fractured skull and severe brain trauma, including 7 brain bleeds. I have severe permanent brain damage.

I have been illegally targeted by the QLD Government. I am seeking charges against those who have committed crimes against me, compensation for the damage that has caused and answers to how and why this is/was allowed to occur.

I will be seeking 5 million dollars in damages from the state of QLD and reserve the right to sue the individual entities and persons that facilitated this perversion of justice. I have had my life ruined, been nearly killed and been put in serious danger by the misconduct of state officials. This targeting continues.

I have had my life ruined by false allegations by my former girlfriend. She and her Father will be subject to separate civil litigation along with charges being sought.

I allege this targeting has been done to incidentally murder me by proxy to stop the public finding out about my Dad's work, which exposes enormous Government corruption. The state has been using process to punish me and denying my right to a speedy trial among many other rights they have denied me of. I have lost income and 3 different jobs all because of the fraud used to target me. My name has been tarnished with my name all over the internet with these criminal allegations of which have now collapsed.

I had my freedom taken from me for 247 days and had to wait 15 months to get a trial to clear my name. I was subjected to 3 separate assaults in prison and 1 attempted rape. I was also assaulted by Police on at least one occasion with me being assaulted on another occasion with the police not getting me or my friend medical treatment despite both being assaulted and concussed. They left my female friend alone without a phone and assaulted on the side of the road in the middle of nowhere at midnight. **Complete failure of duty of care.**

The police are continuing 2 cases against me that both relate to the latter 2 assaults mentioned above, they have not provided any evidence in either case. **How can I get a fair trial when the Police and DPP are engaging in illegal activity to target me and have just been caught in a trial doctoring photos and doctoring transcripts to protect their criminal activities that even the Judge raised issue with?** Having the corrupt police investigate themselves is a farce and the AG, CCC are compromised as my Dad's work proves, as they have covered up TREASON. Twice they have made me sit at court for 5 hours then the police ask for an adjournment or in a recent hearing the judge said as there was no date on the police documents she would adjourn making me sit there for hours a week later, clearly

using process to try and intimidate me plus punish me. Each time my case was heard last.

The issues moving forward that I will prove not only in the court but also in the public square. This raises to the level of criminal conspiracy and those accused must be charged and tried or this will show ALL our legal system is two tiered and is not fit for purpose.

The criminal trial against me, second last day's transcript wasn't delivered that evening as ordered. As it had been in previous days. I had to email the DPP and ask for it, what was sent has been heavily doctored with my entire closing statement to the jury deleted. This is a PERVERSION of JUSTICE. It will be alleged this was done to hide incriminating evidence of illegal conduct by the crown and its agents.

The last day's transcript wasn't provided at all contrary to the order.

CRIMINAL CODE 1899 - SECT 205 Contempt of Court

CRIMINAL CODE 1899 - SECT 129 Damaging Evidence with intent

CRIMINAL CODE 1899 - SECT 140 Attempting to pervert justice

The crown got caught doctoring photo evidence in a trial to trick the jury. The judge even said that these changes were not insignificant. There are more transcribed sections and photos showing further manipulation by the crown.

This photo was from the forensics lab and in the original evidence brief, it shows 2 dots

This was the same photo the crown gave to the jury. They have turned the contrast up and adjusted the colour to create bruises that aren't there.

This red mark on the neck is not in the ambulance report, despite them doing a thorough check including all the strangulation tests, which were negative. These photos were taken hours after the ambulance report. However during cross-examination she claims that there is a bruise in the square when the crown prosecutor showed the doctored photo. This is the close up from the forensic lab original.

We have an ambulance report that shows no marks on the neck, just two dots. No other marks at all. We have a video of a detective claiming there are thumb mark bruises on the throat that aren't there.

This is the photo that was given to the jury. Again they have turned up the contrast and adjusted the colour to create a bruise that isn't there.

14052026/MCY2/William son DCJ

DEFENDANT: I agree. The only reason I ask this is because I don't want to then say it's doctored or something without - - -

5 HIS HONOUR: But that doesn't make me as doctored. Isn't it just - these things are printed. Is - - -

DEFENDANT: Well - - -

10 HIS HONOUR: - - - it - - -

DEFENDANT: - - - it's different and then - to what I've received and what she went off, what she had already received. And now there's a change in colouration, and that's what was presented to the jury.

30 HIS HONOUR: Actually, can I have the photographs myself? Yes. Sorry, I'll hand those ones back first. The discolouration in the photos is not insignificant. Have you done the comparative exercise, Mr Smith?

MR SMITH: Between?

35 HIS HONOUR: The exhibits and the Forensic Services Group photographs. So just as an example - - -

MR SMITH: If I could just have a brief moment, your Honour.

40 HIS HONOUR: Yes. Of course.

MR SMITH: Just in relation to exhibit 15?

45 HIS HONOUR: No. All of them, in fact – take exhibit 13.

MR SMITH: Well, that – the photos as to the exhibit are darker.

HIS HONOUR: Yes. But they're actually discoloured.

3-47

CRIMINAL CODE 1899 - SECT 123 Perjury

CRIMINAL CODE 1899 - SECT 126 Fabricating evidence

CRIMINAL CODE 1899 - SECT 129 Damaging Evidence with intent

CRIMINAL CODE 1899 - SECT 140 Attempting to pervert justice

Police prosecutions fabricated evidence in the case and got caught, in the lower Court. They claimed in court that there was a 90 minute assault. This was used to Jail me but is **NOWHERE** in the evidence.

Violation of the Evidence ACT.

CRIMINAL CODE 1899 - SECT 123 Perjury

CRIMINAL CODE 1899 - SECT 126 Fabricating evidence

CRIMINAL CODE 1899 - SECT 140 Attempting to pervert justice

The police denied me my rights, refusing a phone call for over 50 hours upon arrest.

This violates: Police Powers and Responsibilities Act 2000 (PPRA)

The police tried to extort my DNA using my phone call as leverage, we have video evidence of this plus they charged me with refusing to give a DNA sample which they dropped when I asked for the body cam footage of multiple officers proving I was being extorted. No footage was provided however in my Police interview, which I have, the officer admits this was happening.

CRIMINAL CODE 1899 - SECT 415 Extortion

The Police failed their duty of care by not notifying the jail before my transfer of my traumatic brain injury and high risk status, despite being notified and given my medical records by email, by being handed hard copies, by being told in Court and by being told by my Dad when he handed over the hard copies of my medical records.

This is 'high scale' police misconduct against a vulnerable person.

<https://www.aic.gov.au/sites/default/files/2020-05/rip21.pdf>

Failure of duty of care and violations of the Corrective Services Act 2006

They jailed me by way of FRAUD and got caught.

CRIMINAL CODE 1899 - SECT 408C Fraud

I got assaulted on 4 occasions in prison.

Twice assaulted in the yard, random headbutt one time and random sucker punch another time.

They put a known sex offender in with me who got nude, started masterbating and tried to rape me, lucky I was taught to fight and was able to fight him off till guards arrived. This was not a mistake!

Then they put a 6ft5" Sudanese junky psycho in with me who forced me to take an oral opioid drug then headbutted me and punched me. I thought I was going to die. Afterwards this inmate was threatening to kill me repeatedly.

Failure of duty of care and violations of the Corrective Services Act 2006

Then we add that Lee Coltman had made threats that he would get me. He was asked during cross-examination if he made this call and stated "He couldn't recall". Phone records will prove he did call.

CRIMINAL CODE 1899 - SECT 474.15 Threatening Serious Harm

And he had previously told me that he went to school with a top Victorian police officer and bragged he can GET and FIND anyone anywhere.

It will be publicly alleged that masonic networks were engaged to target me and that the legal system is infested with masons. Freemasonry is a Satanic Cult. As is the female version which is called The Order of the Eastern Star.

Mya made false statements to police to jail me, this is also proven. She lied in her statement and lied in Court.

CRIMINAL CODE 1899 - SECT 123 Perjury

CRIMINAL CODE 1899 - SECT 126 Fabricating evidence

CRIMINAL CODE 1899 - SECT 140 Attempting to pervert justice

In December 2025 the police assaulted me on camera and when caught, targeted me and arrested me in what was an obvious shake down and charged me with breaching my district Court bail that I hadn't been on for a month as Judge Cash varied it. There's a lot more details.

CRIMINAL CODE 1899 - SECT 335 Assault

CRIMINAL CODE 1899 - SECT 415 Extortion

The kicker with that last bit is the police already attended and said they wouldn't act because they could see no breach had occurred. So this is Double Jeopardy.

Police entrapment and assault of Daine Fleguel-Cannock

Timeline Friday night 5th December 2025

5am wake up and train at the body gym.

630am start work

240pm finish work

4pm meet my Dad

5pm pick up my Friend drive to Noosa

6pm 10k hike to Hell's gate

830pm get dinner

9pm start driving home

915pm start feeling unwell and having trouble focusing.

930pm decide we needed to stop, this was advised by my Neuro team due to my TBI, sleep is the only fix.

950pm find a rest area just past Coolum, recline the seat and have a sleep.

145am 6 December 2025 is when the video begins.

<https://youtu.be/tiI0u6oWEY8>

Why wasn't this Coolum police officer charged with attempted entrapment and assault like a member of the public would be?????

Hitting someone in the head who has a TBI can be fatal.

Days after this my licence issue arose with the RTA emailing me falsely claiming I'd not served a suspension for speeding, despite me providing them with their own documents proving the suspension had been served. They then took further action not supported by the legislation to target me, again double jeopardy. Then on 15 December 2025 I got arrested after work by undercover Police and taken to Coolum Police station for what can only be described as a shake down. My Dad rang the station and the head Cop from there answered his call directly and started making threats that 'Daine is lucky he's not being charged' for being assaulted by police. The officer then tries to minimize the conduct of his officer and says that he is doing the investigation for Ethical standards. He then says that hitting people is something they train to do, my Dad records all phone calls. **This is blatant Police Corruption!**

Then they charged me with being unlicensed which the RTA had suspended that day without my notice and charged me with breaching a bail I haven't been on for a month. Charges that officers had already said on 20 November 2025 they would not be seeking as they could see I was compliant. I have just been found not guilty on all the charges which were used for the bail in the first place. Police have adjourned this 3 times without providing any evidence.

In October 2024 I was charged and later convicted of failure to follow police directions - this was the initiation of Mya's DVO

The complaint about the Police is in the Police system under reference number **10487644**.

-----Statement of Craig Cannock my Dad:-----

The police rang me at 11:01pm and I instructed them that they were to call me when he was ready to be collected, **which they agreed to do**. I told them Daine was still in recovery from his traumatic Brain Injury, they were aware I had seen him before his arrest and it took him 20 minutes to recognise me. I told them that he would not follow any directions given to him, not because he's being belligerent but as he was having severe cognitive problems at the time which was Post Traumatic Amnesia (PTA). They agreed to call me to collect him so everyone was safe. They then at 1:45am released him without calling me and he walked home, on the way his friend

drove past and picked him up and dropped him off. Daine was so absent minded at the time that he left his police documents in his mates car, his mate read them and notified police he'd just dropped him home, which he was directed not to do. This is all documented in the full complaint. Police set him up to fail. **This is a complete failure of duty of care by the Police to protect both Mya and Daine.**

Hello

Further to my complaint, I have just spoken to the officer handling this matter. The officer continued to claim that the statutes say this and that but the officer failed to identify the statutes which he relied upon choosing to give vague explanations.

He has made the false claim that Police tried to call me at 1:45am 3 October 2024. This did not occur. He has then tried to muddy the waters by suggesting as I made a typo on my complaint phone number this somehow admonishes them for failing to call me as stated. I note that police called me on the correct number at 11:01pm on 2 October 2024, when we entered into a verbal agreement that I would collect my son and they would call me when he was ready for collection. To suggest they may have called the wrong number due to the above error is moot as my complaint was 6 hours after the fact, so my number error is irrelevant.

I'm more than happy for my phone records to be subpoenaed to prove the police did not call as claimed. I stand by my claim that the Police have a duty of care to protect all parties from further harm upon release and failed to do so by neglecting the agreement made at 11:01pm.

The police created the secondary issue by not following their agreed upon arrangement.

Please keep all further correspondence in writing!

Regards

Craig Cannock

Failure to attend Court

He did attend Court on that Day, what had occurred was I emailed Legal Aid a few days before asking they seek an adjournment for Daine as an 11 A assessment was being done and that report was not yet ready. It was explained to them Daine had just started a new job and he was on a 4 week trial wherein he was required to not miss a day as his new boss wanted someone reliable. The legal Aid lawyer Celeese Breeze/Wildin rang Daine at 10:30 the day of court, calling me afterwards and said she couldn't act for him without his attendance and he would have to come to court now. I drove and picked him up and took him to court, arriving a bit after 11:15am, he was signed off in the registry as attending and it was listed for the next day. He took the next day off and attended court, he lost his job. He asked about any warrants and the judge said he couldn't see any but he wasn't the judge the day before. He was told to go to the police station after court which we did and they said they could see what had occurred and to leave it with them and they'd call if there was an issue. They never called. Then at the next hearing Daine got stitched up for failure to attend.

Legal Aid

As Daine has severe brain damage from a 2023 assault and was still in recovery from his permanent traumatic brain injury upon his arrest we sought an 11A medical bail. Despite the legal aid lawyer Celeese Wildin having Daine's full medical records she turned up to the bail hearing seeking the medical 11A bail but failed to bring the

medical records. This was the main piece of evidence so to not present it was by design. I allege this is professional misconduct with intent.

Once Daine told legal aid he didn't want them to act for him, Michael Robinson from legal aid turned up to Court without Daine being notified or present and had the matter adjourned despite being told not to act. **This is FRAUD.** And in effect delayed his bail application which was later successful.

I allege this is professional misconduct and part of a plan to target Daine.

In addition while Daine was in jail I tried to get the brief of evidence from Legal Aid Maroochydore. I was told by the female office manager, pictured below, that ***"You and your son will never see the evidence we have on him!"*** I recorded this and there was a witness in the office who was clearly in shot listening, bearded man. He will be called as a third party witness to confirm this was said.

On 28 February 2026 Judge Cash ordered legal aid to provide Daine with a lawyer to cross-examine the complainant; he said they would contact him in about 2 weeks to assign a lawyer for the May 12 trial. At the start of April he chased up why he'd not yet been given a lawyer. They finally assigned a lawyer in late April with his first available meeting to arrange for a trial on 4 May. It's pretty obvious this was done by design to limit preparation time and disadvantage Daine's case.

My criminal complaint against the government will be separate, as I have also been extensively targeted by the Australian Government and its foreign masters.

-----**End statement of Craig Cannock**-----

On top of all this after suffering my TBI I sought a payment from Victims of Crime. My medical team provided documents proving I have permanent brain damage. They refused to give me the permanent injury payment I was entitled to, instead they sent me a letter saying it was my fault I got assaulted, despite my attacker confessing to grievous bodily harm and the assault. They then only paid me a reduced payment of

\$6700 far short of the \$75,000 I was entitled to. When we tried to take the matter to court we were told that I needed new doctors reports from the Doctors who treated me in hospital. My Neuro team in Brisbane is basically impossible to contact as they are busy saving lives and my ENT has an 18 month wait list for an appointment. They made it impossible. I still need surgery to reinflate my collapsed vocal chord and I need 10k worth of dental work as my lower jaw shrank which is common with my type of brain injury. Basically none of my follow up medical needs have been addressed.

As you can appreciate, all of this creates very ordinary OPTICS for the police, DPP, Legal Aid, police prosecutions, the RTA, the jail, VoC and any ordinary person reviewing this evidence would have a very difficult time understanding how this is not blatant **SYSTEMIC CORRUPTION**. The CCC, Attorney General (state and federal) and Premier have all been contacted about this and have all ignored this as well. They have also covered up my Dad's work that he has sent to them. As we see elsewhere in the world if you expose the corrupt people running our world they have no issue targeting peoples children!

I have been routinely harassed and followed by Police, with them turning up repeatedly at my place of residence. I'm concerned for my safety, feel there is no-one in Government who will protect me or my rights and I'm concerned about the police the most. Considering the evidence I still believe they are actively conspiring to kill me and my Dad.

If this is covered up or allowed to stand it will show the people of Australia that the government is working against the people to protect the criminal class who have hijacked our country..

Regards

: Daine : Fleguel-Cannock
